

SMC Cylinders

Our Repair Process:

- Complete Teardown and Evaluation of all cylinder components
- Scope of work and failure analysis data recorded
- KRS is able to restore your cylinder back to OEM specifications
- Piston and housing are repaired or replaced as needed
- Every repair comes with new hardware and seals
- Cylinders are cycle tested for air tightness to ensure no leakage
- All parts are rebuilt back to OEM spec
- Your cylinder is returned looking brand new

- Kennedy also repairs OEM's including: CKD, CENTERLINE, OBARA, INOUE, DENYO KOGYO, DENGENSHA, MILCO, SAVAIR
- Most repairs are 50% less than new
- Terrific turnaround times & emergency repair services
- Repairs include a 12 month in-service warranty
